General Strike Now.

THE ASSOCIATED PRESS.—P.M.
LONDON, Dec. 11.—The Daily Telegraph prints the concluding part of the dispatch from Harbin, Japan, begun Monday, giving detailed accounts by refugees of the repeated sackings and burning of Harbin, Manchuria, by Russian troops.

It says the mothers set fire to and pillaged houses in every direction and looted all the weapons and ammunition they were able to lay hands on.

When dawn came, according to these accounts, all the mothers crept to their hiding places. The men were the remnants of the city while efforts to suppress the mutiny.

Madness, with savagery, took extremely drastic and inhuman methods to suppress the mutiny, because he feared the consequences would result from the spread of the mutiny to the whole army.

In order to compel the mothers to quit their hiding places, the men set fire to the barracks. The flames spread to all parts of the city and the mutiny, in seeking to escape, were slaughtered.

Then the mothers dragged out several machine guns and poured a heavy fire into the barracks. There was great loss of life.

NO GENERAL
LEGISLATION.

CANAL BILL SIMPLY PROVIDES
SINKING OF WAR.

Senate Committee Strikes Out the
Sinking of War.

WASHINGTON, Dec. 11.—The Emergency Appropriation bill to provide the Isthmian Canal Commission with funds to carry on the construction of the Panama Canal will contain no general legislation. This was decided by the Senate Committee on Appropriations at a meeting lasting all of today and at which it was agreed to report the measure appropriating \$11,000,000, the amount named by the House bill.

The first section of the bill, in relation to the issue of bonds was stricken out. A bill containing this feature was introduced in the Senate by Mr. Teller and it will be dealt with by the Finance Committee. The bill was amended further to provide that in the future no expenditures shall be made for the canal except by authority of Congress and when appropriations have been made by Congress.

Secretary Taft of the War Department, Theodore P. Shonts, chairman of the Canal Commission, Joseph H. Bishop, secretary, and other officials of the commission, including the purchasing agent and the assistant purchasing agent, were before the committee and were subjected to pointed inquiries as to the manner of making expenditures. Mr. Taft and Mr. Shonts urged that the appropriation be increased to \$15,000,000, the amount named in the bill before it was amended in the House. They admitted, however, that \$11,000,000 would be sufficient to carry on the work until April. In view of the fact that Congress will have plenty of opportunity to legislate by that time, it was determined not to restore the \$15,000,000 cut out by the House.

THE CANAL BOY.
The examination of Mr. Bishop, who had been referred to in the House debates as a "pious agent" for the commission, was of a personal nature, in that he was asked to define his duties. It was shown that in addition to acting as secretary he is a sort of diplomatic agent charged with meeting any possible contingency that may arise in the absence of Mr. Shonts and Mr. Leonard Pepperman, the assistant chief of administration. Mr. Bishop says he assumes their duties in Washington, even to the extent of signing checks, and that he deals directly with the Secretary of War in relation to canal matters. He said he was the historian for the commission and assembled data of all kinds that might be of any use. He admitted that to some extent his information was used for the public press. In his capacity of literary secretary, Mr. Bishop explained that he was not expected to create public sentiment, but to keep it normal. In explanation, he said that there had been a determined effort on the part of the opposition to direct public feeling against the canal, and that before he entered the employ of the government his services had been sought by those interested in more liberal compensation than he is now receiving.

DEFINES OPPOSITION.
When asked to name the opposition interests, Mr. Bishop specified the Nicaraguans, the Tehuantepec and the Darien canals, and ventured the surmise, as the transcontinental railway route also were concerned in the opposition to the canal. In reply to questions as to the activity of the railroads, he said that he had no positive information that they were opposing the canal enterprise.

Mr. Shonts defended the action of the commission in employing a literary secretary, as the transcontinental railway route also were concerned in the opposition to the canal. In reply to questions as to the activity of the railroads, he said that he had no positive information that they were opposing the canal enterprise.

REPORTS OF OFFICIALS.
The Appropriations Committee took

up the making of reports by officials of the Canal Commission and in that regard the provisions of a bill adopted by the Senate Committee on Inter-oceanic Canals, last Congress, were agreed upon. These provisions were placed in the House bill as amendments and enter into details as to the manner of requiring reports to be made to Congress.

If the Finance Committee reports promptly the Teller bill in relation to the bonds, it is possible that in the interest of saving time this may be returned to the bill as a new section, and the other amendments decided upon by the Appropriations Committee dropped temporarily, to be dealt with later by the Isthmian Canal Committee. The effect of this would be to place the appropriation of \$11,000,000 on record against general legislation and give the bond feature of the House bill the endorsement of the Finance Committee, and at the same time avoid a new bond bill in the House.

The bill will be reported to the Senate early tomorrow.

In the course of today's hearing Secretary Taft announced that he was willing to accept the amount as appropriated by the House, \$11,000,000, and said that would be sufficient to carry on the work until April 1, but that after that time he would have to ask for a new appropriation. He said that he had no objection to the remainder of the year.

WOUNDED BY WOODEN PEG.

WORKMAN ON ROCKEFELLER'S ESTATE IS SHOT.

Foreman Uses Unique Ammunition on Man Employed There Who Is Shot on Head—John D. Jr., Discharges Former, but Stray Bullet Continues to Perforate Cuts of People.

[BY DIRECT WIRE TO THE TIMES.]
TARRYTOWN (N. Y.), Dec. 14.—[Exclusive Dispatch.] Because a workman on John D. Rockefeller's place at Tarrytown was shot on the head last week, he was shot by the foreman and wounded by a wooden peg loaded in the revolver cartridge. John D. Rockefeller, Jr., was so enraged at the foreman's action when he heard of it yesterday that he personally discharged him.

There has been careless shooting at Tarrytown since Rockefeller's estate was taken over by him. A few days ago, the ten-year-old daughter of George F. Ferguson was shot in the leg by a stray bullet while on her way to school.

Nearly all of Rockefeller's men carry guns. His deputy sheriffs carry them all the time, with orders to shoot. Their guns are loaded with specially made cartridges, carrying wooden pegs about half an inch long. The hunters have resented the appearance of these men, as their dogs have been shot. Rockefeller says that for every dog killed.

Rockefeller's superintendent, Henry, said today that he is greatly regret any trouble. He has to protect the game. Signs prohibiting hunters are posted over the estate, but people are warned. If they violate the law, why, of course we must protect ourselves. That's all there is to it.

PINCH RACE-TRACK SCHEMERS.
"FIRST-PAST-POST" THEIR GAME.
[BY THE ASSOCIATED PRESS.]
CINCINNATI, Dec. 14.—The police today raided a room in the Johnston building at Fifth and Walnut streets and arrested seven men who, they allege, operated a scheme to defraud betters on horse races by what is known in racing circles as the "first-past-the-post" game. The men arrested are Charles (Chap) Moran, Frank Smith and Thomas Gleason of St. Louis, William H. Munk of Seattle, George D. Starbuck of Cincinnati, George H. Dexter, alias Dallas, of Birmingham, Ill., and Henry Holmes of Indianapolis. No formal charge has been placed against the men, all being held on suspicion. It is believed they secured several thousand dollars from betters on the races in Cincinnati.

The scheme the men are accused of working is well known to racing men. According to the police, they learned that Munk and Moran were circulating among men known to bet on races and told these betters of the "first-past-the-post" scheme. A detective was sent to the room in the Johnston building with instructions to do business with them, if possible. After several negotiations, the man was told to let a small amount on a certain horse. He won \$44, which was promptly paid by the detective. Still adhering to the police instruction, the supposed victim was on hand last Saturday, when he again bet on a horse, but on a larger scale. He wanted to bet five on a "sure thing," but the men, thinking they had a sure victim, told him to wait until next week, when they would have a "fixed race" and advised him to bring back with him.

CRIME BRIEFS.
Men Committed for Extradition.
LONDON, Dec. 14.—C. C. Melr, alias Miller, of San Francisco, who was arrested in London November 1, at the request of the State Department at Washington, on the charge of embezzling \$100,000 from the city of San Francisco, was committed for extradition at Bow-street Police Court today. Melr decided not to fight the application for his extradition.

Hampshire Going to San Quentin.
STOCKTON, Dec. 14.—George Hampshire, convicted upon his second trial of embezzling \$100 of the funds of the Yosemite Theater of this city during a Florida tour, was today sentenced by Judge Kutter to five years in San Quentin. Hampshire has worked for various theaters in this state and is well known among theatrical people. He is said to be sent to San Quentin.

Dressed and Then Robbed.
SAN FRANCISCO, Dec. 14.—Robbed of her jewelry, valued at \$400, and \$50 in cash, after being dressed, is the story which Mrs. Grace Hopkins told the police today. At her indignation, Detective O'Don and Ryan made an investigation of the case and arrested Harry Arnold, George Meyer and Robert Nells. Mrs. Hopkins said that, in the company of the three men, she had come to a saloon on Mason street, where she claims her companions returned her of her jewelry and cash after having dressed her.

LONG BEACH.
MISSING—A PROFESSOR.
LONG BEACH, Dec. 14.—Ladies of Long Beach are wondering where Prof. Ryan is. The professor came here a few months ago and started a "physical culture" class, to perfect the human form. He had out about a dozen, removed a few and turned "back" into "front" class. Two classes were successfully organized and then came the crowning blow—the professor dreamed of a great, beautiful home for the physically weak, a haven for the imperfectly developed, in short, a retreat for all mankind. But he was a little shy of cash and appealed to his pupils, who responded generously. He had each man to receive a handsome gift. The professor, who had a secret, told that the project had been of a kind and was. Then the gift was agreed to be made. The professor was told to leave. The professor, who left in a car, is still looking for a favorable location.

LONG BEACH BRIEFS.
The next intercollegiate debate in the High School League will be held at Long Beach January 14, with Santa Ana, which will have the affirmative side of the question: "Resolved, That the form of government in the United States is the best form of government known to man." The Long Beach Water Company has secured a new reservoir on the 15-inch main connecting with the distribution system. The cost of the added improvement will be \$24,000.

The Inner Harbor Gas and Electric company is building a new gas plant on the flat west of town. The company has recently reorganized with a capital stock of \$200,000.

Hampshire Government's Efforts to Relieve Distress Most Difficult—in
Oral Province Famine Will be
Sovereign Than Fourteen Years Ago.

[BY THE ASSOCIATED PRESS.—A.M.]
ST. PETERSBURG, Nov. 14.—[Correspondence of the Associated Press.]
The government is making efforts to relieve the famine in the North, where the crops failed last year, by the unsettled conditions, by pitiful tales of distress, and by the fact that the families are starved and their children are dying. Peasants are being sent out, not only to Russia, but to foreign countries.

The situation is particularly acute, and the government has requested the charity and humanitarian appeal to the people of America, who have been so generous in their aid to the Russian people, to send more aid to the Russian people.

In The American Cigar Company's Stemmeries

A good cigar is like a living thing; not only does it possess a physical form, but a vital quality that pervades it. This subtle essence gives the cigar its "life," flavor and aroma—when it is gone nothing remains but a dry bundle of dead leaves. Millions of these "dead" cigars are smoked weekly in the United States. Tobacco is a real child of the tropics and it can never fully mature away from the humid, tropic conditions of its native climate. The "A" (Triangle A) method that produce the

and many other brands, preserve the "life" of the cigar by keeping the tobacco always in Cuban atmosphere—real or artificial—in the stemmeries, factories and warehouses, until the seasoned cigar is ready for the smoker. CREMO Reina Victoria is a new size in a famous brand, that has attained a remarkable degree of excellence under "A" (Triangle A) perfected methods. The all-important "life" of the tobacco is present in every cigar of every "A" (Triangle A) brand; still another reason for "A" (Triangle A) superiority—unequaled condition.

Sold by cigar dealers everywhere. Manufactured by American Cigar Company.

Your Ideal City

IF YOU were asked to design an imaginary ideal city, equally advantageous for residential and commercial features, you would undoubtedly say:

FOR A RESIDENTIAL CITY, locate it where the climate is the most even, where winter's chill and summer's heat are not excessive; where the salt water of the ocean---or preferably a sheltered harbor or bay---laps the shore; have this ideal city rise gradually from this waterfront to the mountains to insure picturesque residence sites and healthfulness; if possible, have the hills surround the city on three sides in a semi-circle to protect it from high winds; as a crowning glory place a large natural lake of salt water, renewed by each incoming tide, in the center of this ideal city.

FOR A COMMERCIAL CITY, select a site on the mainland in the geographical coast center of the State where all transcontinental railroads, either existing or prospective, may terminate; where transportation by rail and water are united and the sheltered harbor is of sufficient size to contain at one time all the shipping of the Pacific Ocean; from whence vessels may sail directly between all ports of the Orient and islands of the Pacific and unload their cargoes directly upon transcontinental trains.

Having thus planned your ideal city write to the Secretary of the Oakland Board of Trade, Oakland, Cal., for free illustrated literature, or, better still, take the "All Day for a Dollar" excursion (under auspices Oakland Board of Trade) starting from San Francisco any Monday or Friday morning at nine o'clock and see for yourself that YOUR ideal combination residence and commercial city

Is Indeed a Reality

with its en-

twined Mexican colors red, green and white. Flowers, rich cloths and many candles were used in the plans, and the whole made a striking picture. The side altars were treated in a similar manner, and both at the high altar and the side altars, red, green and white electric light bulbs were used with fine effect. A crown of lights was turned over the statue of the Blessed Virgin.

All this decorative work was carried through by two modest Mexican young men who have been in Los Angeles only a few months. They are Theodor Herrera and Ygnacio Vlasco, from the City of Mexico. Both have spent much time in church decoration. Among their notable efforts have been the decorations in the "Templos" Santo-nario, de Guadalupe, San Francisco, Sagrado Corazon, Cathedral of Chihuahua and Sagrado Familia.

The services yesterday were at 8:30 a.m., and the old church was packed with people. Many were unable to gain admission. The Mexicans made a picturesque sight as they devoutly knelt in the churchyard, under the shadow of the great date palms which stand as sentries by the side portal.

The solemn high mass was celebrated by Rev. Juan Caballero, with Rev. J. Baundry as deacon, Rev. A. Lantigua as subdeacon, and Rev. D. W. J. Murphy, of the Church of the Blessed Sacrament, Hol-

lywood, as master of ceremonies. The music was by the regular choir and the Society of Guadalupe. The sermon was by Father Caballero.

Last evening a solemn triduum was closed by the reception of Mexican children into the Society of the Children of Mary.

It is said that the great influx of Mexicans to Los Angeles within the past two years has caused much interest to be manifested in the festival of yesterday, and that never before in this city was it so largely observed by Mexican Catholics. In the Republic of Mexico this is one of the greatest days in the church calendar.

BAJA CALIFORNIA'S GOVERNOR.

Hon. Celestino Vega, Governor of Baja California, with his wife has been spending several days in Los Angeles, as guests of Mr. and Mrs. A. J. Flores of No. 331 Boston street. Their son, José Vega, has been a student for the past year at the Los Angeles Military Academy. Gov. Vega and wife departed on Sunday for the City of Mexico, where they will be guests of President Diaz. They will be in that part of the Mexican capital for two months, and will again stop in Los Angeles on their return to Ensenada.

A joint Turkish-Persian commission has been appointed to arrange the frontier dispute, if possible with the view of averting a conflict.

NEWS AND BUSINESS

Blind Pig Stabbed.

Tom Toren, the bartender of the Beethoven Club, conducted by Joe Rana, at No. 621 New High street, was arrested yesterday on the charge of killing a blind pig and was released from the City Jail on \$50 bond.

Beethoven Trio Concert.

The concert of the Beethoven Trio will be given this evening in Blanchard Hall. The trio consists of Miss Johnson, pianist; Carl Muskat, violinist; and Bernhard Blumrich, cellist.

Missing Girl.

Frances Whit, a fifteen-year-old girl of Compton, has been reported to the local police as missing, having left home several days ago. She is large for her age; weighs about 130 pounds, and when last seen wore a dark skirt and a blue-green plaid waist.

Mildred Allen Improves.

Little Mildred Allen, daughter of J. T. Allen of No. 421 East Washington street, who was seriously injured by being struck with a rock thrown by some unknown person at the San Pedro street school, is resting comfortably at the Clara Barton Hospital, and is now out of danger.

Masonic Installation.

Officers elected at the annual election of West Gate Lodge of Masons on December 1, will be installed Thursday evening. The ceremonies will be followed by a banquet and speaking at which many prominent Masons of Southern California will be in attendance.

Thrown from Wheel.

Robert Anderson, an old man, lost control of his bicycle while attempting to ride down the Grand Canyon road, yesterday afternoon, and was thrown to the street with great force. His home was nearby and his face was cut and bruised. At the Receiving Hospital he was so dazed that he could not tell where he lived.

Fall from Building.

W. W. Bristol, who was engaged at work on a house on Los Angeles street, fell to the ground from the second story of about thirty feet, but it was found at the Receiving Hospital that his injuries were not of a serious nature.

Crop Conditions.

The weekly climate and crop service weather bureau bulletin just issued for local forecasts for George E. Franklin reports that oranges are showing rapidly and that there is much activity in selling for the holiday trade. The high winds of the past week have done some damage to citrus fruits and young trees and to celery. The need of good rains is noted. In the southern districts a large acreage is being plowed and seeded, and grain is growing rapidly.

Beethoven Trio.

Tonight at Blanchard Hall the Beethoven Trio will give the first of four historical programmes to be presented by them during this season in this city. They have chosen for their subject this evening "The Old Master"—the period 1540-1790. The programme, selected by the company, includes by Scarlatti, Bach, Handel, Mozart, Haydn and other masters of that quaint old-fashioned time. The invention of the violin and clavichord until the French Revolution.

Drunk Caribbe Asks.

A dead man was found lying in Central Park at an early hour yesterday morning, and removed to the morgue of Bruce Bros. The inquest was held at 9 o'clock, when, as near as could be learned from the contents of his pockets, his name was found to be W. J. Stone. A post-mortem was performed by Dr. George W. Campbell, who testified that the man had drunk probably an ounce of caribbe acid. Nothing more was learned as to his identity.

Seamans Leaves.

Edward F. Seaman, manager of the Olympia Ice Company, died yesterday for the East. Manager Seaman and Manager Fischer have been working for several days. The following officers were installed: Arthur Wheeler, W. M.; Henry D. McCabe, Jr., Thomas; J. E. E. Bradley, Samuel Gowan, D. D.; Walter P. Jones, D. D.; E. A. Miller and Joseph Chambers, S. D.; Dr. D. W. Roseman, chaplain; Lewis A. Crisler, master; and D. O. Freeman, tyler. The new master of Palestine lodge is employed at the Courthouse, and his first task took the opportunity of his installation into office to visit the lodge, over which he will preside during the coming year. After the installation preliminary refreshments were served and an impromptu dance brought the evening to a close.

BRIDGE DOWN, STAYS DOWN.

Long Beach Harborites Enjoin Salt Lake.

Outcome May be Cutting Off of San Pedro Main Line.

United States Attorney to Sue for Government.

The Times published yesterday morning, the news of a \$2,000,000 harbor project at Long Beach by the Los Angeles Dock and Terminal Company. At 10 o'clock a. m. a temporary injunction restraining the Salt Lake Harborites from proceeding with that work was asked for in the United States Circuit Court, and was granted by Judge Welborn.

So that yesterday's developments in the new harbor situation were rather startling.

On the face of the injunction proceedings the Dock and Terminal Company does not appear. To enjoin the Salt Lake Harborites from proceeding with their work, the Dock and Terminal Company, which is the manager of the Western Boat Works, located on the slough lands east of the bridge, held the same view quite entertained by Mr. Carver to ask the Federal court to prevent the Salt Lake Harborites from proceeding with their work.

By all means the joke is on the Salt Lake Harborites. At that, for United States District Attorney Valentine is preparing, quite aside from his retention by the Dock and Terminal Company, to institute legal proceedings on behalf of the United States government to restrain the Salt Lake Harborites from proceeding with their work.

FAR MORE SERIOUS.

This brief, however, which is "vital" to the passage of Carver's clients and the free movements of the Dock and Terminal Company, is only a freight bridge, being a portion of a spar track, connecting the Salt Lake Harbor with the San Pedro Harbor. Its abolition affects

OPENING OF ORIENT LINE.

First Vessel to Reach San Pedro in February.

General Manager of New Route Coming Soon.

Will Arrange for Starting of the Service.

J. Flood, general manager of the new steamship line which is to ply between San Pedro and the Orient, with the backing of the Salt Lake Harborites, is expected soon to return from New York, coming to the Coast in ample time to meet the first steamer of the new route, which is scheduled to arrive from the Orient in February.

The steamer will carry about 800 tons of freight, the greater part of which already has been contracted to be hauled over the Salt Lake, and to be turned over to its connecting lines for delivery throughout the East.

Consistently the China and Java Export Company, a corporation having offices in San Francisco and London, is back of the enterprise, but as told by The Times recently, it has the backing of the Salt Lake Harborites, and behind that the direct encouragement of Senator Clark himself.

This company already is plying a string of four or five steamers between California and London and San Francisco, and has well-established connections in the Orient. It is proposed to get on one of their steamers, the San Pedro business exclusively, and to build up the trade through this port as rapidly as possible.

Much to the disappointment of Hawaii sugar planters who are now so ardently interested in the development of the harbor and the business of the port of San Pedro for their own good, the proposed linearity of the steamer service to San Pedro does not contemplate any stops at the Hawaiian Islands. It is believed, however, that the company will be offered the company by the merchants and planters of Hawaii that they will be tempted to have the route of their vessels and make regular stops at Honolulu.

The return of Mr. Flood is awaited with a great deal of interest, as with him lies the arranging of the details surrounding the entry of the first regular trans-Pacific steamer service into the harbor of San Pedro.

It is understood that the company already have been made for the unloading of shipments directly to bonded warehouses, and that the route will be released by the government customs authorities.

Loggans & Co. of this city have been made the local agents of the new line, and although the first steamer will have to be lightered, it is hoped to have the harbor in such shape soon as to permit the big steamers to be alongside the wharves.

ARDENT SUIT WINS BRIDE FOR COUNT.

Countess von Holstein.

Count Karl von Holstein, whose ardent love for pretty Miss Mildred Harrison, the Philadelphia heiress, caused him to follow her across the continent, to the vast amusement of the smart set, is coming to make his home in Southern California with his bride. He won the lady.

They are now in San Francisco, but are soon to continue their honeymoon journey southward to Santa Barbara and possibly to Los Angeles.

Sentiment draws them to Santa Barbara, for it is there they met. There the young Bavarian nobleman began the burning suit that so entertained and edified society people.

The Count came to this country with his mother several years ago, she being one of the ladies in waiting to the Queen of Bavaria. They came to the Southwest, where the Count invested in mining property and at length landed in Santa Barbara early last spring.

One of the guests of the Hotel Piner at that time was the pretty Miss Harrison of Philadelphia. She was an athletic girl, tramping over the hills, playing golf, entering into every athletic sport that went on with the best of them.

They met at a ball in the hotel. With great self-restraint the Count withheld his consuming admiration for a few weeks, at least, when he is reported to have declared himself.

One day Miss Harrison disappeared from the hotel. The Count was frantic. Some good Samaritan told him she had gone to San Francisco; he tore out on the next train. He got there the day after the left.

He didn't know where she had gone. Accidentally he learned that her mail had been forwarded to the Springs. When they had been there a few days, he suddenly left for the Springs. He had been told that she had been there and he had been there.

But the laugh that society laughed was not the last laugh.

The Count came back and they were married.

Count von Holstein is a tall, handsome, broad-shouldered young fellow, every inch a gentleman. The pretty young Countess is the daughter of the provost of the University of Pennsylvania.

DOING THE WORK OF ONE HUNDRED MEN.

Mammoth ditching machine at work on Brooklyn Heights.

OVER on Brooklyn Heights, in the very center of the district which a little more than two years ago was a great barley field, but which today is covered with pretty modern cottages, there is a mammoth ditching machine at work which is attracting much attention.

This machine, which belches forth volumes of smoke and pours from its capacious mouth a constant stream of earth onto the "dump" alongside the excavations, is said to take the place of 100 men. It is one of fifty of a similar type, operated in various parts of the Eastern States by the makers, the Municipal Engineering and Contracting Company of Chicago, and is the only machine of its kind west of the Rocky Mountains.

It arrived in Los Angeles about three weeks ago, and was brought here by William P. Erskine, a mechanical engineer from Buffalo. It has been leased for use in the Southern California district by the Alamo Engineering and Construction Company of this city. None of these machines are sold outright, but they are simply leased for certain terms by the owners of the patents.

The first work undertaken by this huge thing of steel and iron, weighing

STOLE GIRL AND LICENSE.

Mean Trick Played on Lovelorn Mexican by His Hated Rival.

Not only has some wretch stolen the lady love of Jesus Billeca, but he has married her with his new \$2 marriage license, impersonating the above-said Jesus.

Although the wretch had to change his name to use the license, it was a money-saving device. Señor Jesus excitedly lodged a complaint yesterday with the County Clerk.

He asked that if Avilina Guerra tried to get a license to marry anybody, not to give her one. He said that he thought she and the base bridegroom might come back and try to get a proper sort of license.

He said, in what broken English he could muster, that he had lived in San Pedro; that he had taken out a license to marry the fair Señora Guerra. The records confirmed this statement. The license book shows that they came for the license, giving their ages as 34 and 35, respectively, stating Mexico to be their birthplace.

Nobody could make out from his excited, guttural-sounding English what had happened, but in some way the license had vanished mysteriously, with it the bride.

It was informed that she had run away with another swain, and that they had been mean enough to use his first new \$2 license to be married with. Of course the person had no means of knowing that the bridegroom was not the Jesus named in the wedding license.

It seems that Avilina Guerra has become, legally, Mrs. Billeca, yet has married no Jesus Billeca.

STREET CAR FIGHT.

Lawyer Adams of Garvanus Has a His Mix-up With Pacific Electric Conductor.

F. S. Adams, a lawyer living at Garvanus and having an office in the Grant building in this city, is hot on the trail of a Pacific Electric conductor and driver who were applying for a warrant for the driver's arrest today. Last night about 7 o'clock Adams says he boarded a Garvanus car near his home to come into the city. His driver he paid his fare when he got on the car, but when near the County Hospital on Mission road, the conductor asked for his fare. They argued about the fare for several minutes and the conductor made insulting remarks and finally shook his fist under Adams' nose. The driver, however, did not do so. Adams got out of the car and the conductor hit him between the eyes and then they mixed in a fight. Adams got the "best" beating into a sea and was about to beat him when he was pulled off by the passengers. Adams went to the County Hospital to have his own attention. He has the names of witnesses on the ground and says the conductor's number is 141.

IS FAVORITISM SHOWN?

Some Physicians Avert That They Do Not Get Their Share of Service in Insane Cases.

Remonstrance of disaffection have been heard among some physicians constituting the Board of Insane Commissioners. It is claimed by them that favoritism is shown by Bailiff Freeman, of Judge Conroy's court, in summoning certain favored doctors. Drs. Wernick and Hotchkiss have been particularly named.

It is admitted that Dr. Wernick has been summoned more than other physicians. This has been due to the fact, says the bailiff, that a number of the insane examinations have been held for persons who were his patients, and he adds the surprising statement that the crazy people themselves have requested that that physician be summoned.

Physicians to hold the insane examinations are taken from a list drawn up by the Judge of the Superior Court. They are summoned in rotation and get \$5 for each examination.

BIG DAMAGES BARE ALLOWED.

Jury Awards Verdict of Nearly Ten Thousand Dollars Against Car Companies.

Mrs. Clara Forbes was awarded a verdict for \$9225 damages against the Los Angeles Railway Company and the Los Angeles-Pacific Railway Company by a jury in Judge James' division of the Superior Court last night. The case had been on trial for two days.

Mrs. Forbes was a passenger, with her husband on a car coming from Ocean Park to the city on April 30 last, and at Flower and Sixteenth streets, a collision occurred with a car of the Los Angeles Railway Company. Mrs. Forbes was thrown to the floor of the car and in the mad rush of the passengers to escape she was trampled upon and injured very severely.

In the trial, both the Los Angeles Railway Company and the Los Angeles-Pacific Railway Company conceded the damage, and the only question that was considered in Judge James' court was the amount of the liability. The case was given to the jury last evening at 4:30 o'clock. The verdict was returned two hours later.

WEDDING BELLS DUMB.

Young Imperial Miss Fails to Produce Mother's Sweet Consent and License is Withheld.

There were some wedding bells that did not ring out last night a forlorn bridegroom and a weeping bride-to-be. Pretty wedding preparations had all been made for Albert English to marry Viola Ross, a pretty, modest girl of 17, who is here from her home in Imperial.

They were duly armed with the consent of the young bride's mother, written from Imperial. With a flush of excitement they went together to the office of the County Clerk and asked for the license.

The deputy sadly shook his head, handing them back the paper. He told them it was necessary to have the sworn consent of the mother, which both looked ready to cry with disappointment. There was nothing to be done but to wait until the mother came back to the Imperial country for a proper affidavit sworn to in due form.

RECEIVING HOSPITAL DOCTORS ARE KEPT AT WORK PLASTERING UP WOUNDS OF THE UNFORTUNATE.

Yesterday was the genuine day for small accidents, and the surgeons at the Receiving Hospital were kept busy attending to almost a dozen cases of more or less consequence that rolled in on them during the day.

The most important one happened about 10:30 o'clock in the morning, when W. W. Bristol, a young plumber, in going to the 607 Central avenue, fell from the third story of the new building at Fifth and Los Angeles streets and hit on his head the bottom of the elevator shaft. Strange to say, the only apparent injury he received was a bad gash on his scalp, but he was badly shaken up and may be injured internally. He stepped on a plank over the elevator shaft and the board tipped him into the yawning hole. After treatment at the hospital he was taken to his home.

Robert Andrews, 32 years old, who is said to live in the river bottom, and who makes a living by peddling water-cress, tried to ride down the east side cross of the West First-street hill yesterday afternoon on a wheel, but the machine got away from him and in about the first minute landed Andrews on his nose in the street. His face was badly bruised. After his wounds were dressed he was put to bed in the hospital.

STOLE GIRL AND LICENSE.

Mean Trick Played on Lovelorn Mexican by His Hated Rival.

Not only has some wretch stolen the lady love of Jesus Billeca, but he has married her with his new \$2 marriage license, impersonating the above-said Jesus.

Although the wretch had to change his name to use the license, it was a money-saving device. Señor Jesus excitedly lodged a complaint yesterday with the County Clerk.

He asked that if Avilina Guerra tried to get a license to marry anybody, not to give her one. He said that he thought she and the base bridegroom might come back and try to get a proper sort of license.

He said, in what broken English he could muster, that he had lived in San Pedro; that he had taken out a license to marry the fair Señora Guerra. The records confirmed this statement. The license book shows that they came for the license, giving their ages as 34 and 35, respectively, stating Mexico to be their birthplace.

Nobody could make out from his excited, guttural-sounding English what had happened, but in some way the license had vanished mysteriously, with it the bride.

It was informed that she had run away with another swain, and that they had been mean enough to use his first new \$2 license to be married with. Of course the person had no means of knowing that the bridegroom was not the Jesus named in the wedding license.

It seems that Avilina Guerra has become, legally, Mrs. Billeca, yet has married no Jesus Billeca.

STREET CAR FIGHT.

Lawyer Adams of Garvanus Has a His Mix-up With Pacific Electric Conductor.

F. S. Adams, a lawyer living at Garvanus and having an office in the Grant building in this city, is hot on the trail of a Pacific Electric conductor and driver who were applying for a warrant for the driver's arrest today. Last night about 7 o'clock Adams says he boarded a Garvanus car near his home to come into the city. His driver he paid his fare when he got on the car, but when near the County Hospital on Mission road, the conductor asked for his fare. They argued about the fare for several minutes and the conductor made insulting remarks and finally shook his fist under Adams' nose. The driver, however, did not do so. Adams got out of the car and the conductor hit him between the eyes and then they mixed in a fight. Adams got the "best" beating into a sea and was about to beat him when he was pulled off by the passengers. Adams went to the County Hospital to have his own attention. He has the names of witnesses on the ground and says the conductor's number is 141.

IS FAVORITISM SHOWN?

Some Physicians Avert That They Do Not Get Their Share of Service in Insane Cases.

Remonstrance of disaffection have been heard among some physicians constituting the Board of Insane Commissioners. It is claimed by them that favoritism is shown by Bailiff Freeman, of Judge Conroy's court, in summoning certain favored doctors. Drs. Wernick and Hotchkiss have been particularly named.

It is admitted that Dr. Wernick has been summoned more than other physicians. This has been due to the fact, says the bailiff, that a number of the insane examinations have been held for persons who were his patients, and he adds the surprising statement that the crazy people themselves have requested that that physician be summoned.

Physicians to hold the insane examinations are taken from a list drawn up by the Judge of the Superior Court. They are summoned in rotation and get \$5 for each examination.

BIG DAMAGES BARE ALLOWED.

Jury Awards Verdict of Nearly Ten Thousand Dollars Against Car Companies.

Mrs. Clara Forbes was awarded a verdict for \$9225 damages against the Los Angeles Railway Company and the Los Angeles-Pacific Railway Company by a jury in Judge James' division of the Superior Court last night. The case had been on trial for two days.

Mrs. Forbes was a passenger, with her husband on a car coming from Ocean Park to the city on April 30 last, and at Flower and Sixteenth streets, a collision occurred with a car of the Los Angeles Railway Company. Mrs. Forbes was thrown to the floor of the car and in the mad rush of the passengers to escape she was trampled upon and injured very severely.

In the trial, both the Los Angeles Railway Company and the Los Angeles-Pacific Railway Company conceded the damage, and the only question that was considered in Judge James' court was the amount of the liability. The case was given to the jury last evening at 4:30 o'clock. The verdict was returned two hours later.

DOING THE WORK OF ONE HUNDRED MEN.

Mammoth ditching machine at work on Brooklyn Heights.

OVER on Brooklyn Heights, in the very center of the district which a little more than two years ago was a great barley field, but which today is covered with pretty modern cottages, there is a mammoth ditching machine at work which is attracting much attention.

This machine, which belches forth volumes of smoke and pours from its capacious mouth a constant stream of earth onto the "dump" alongside the excavations, is said to take the place of 100 men. It is one of fifty of a similar type, operated in various parts of the Eastern States by the makers, the Municipal Engineering and Contracting Company of Chicago, and is the only machine of its kind west of the Rocky Mountains.

It arrived in Los Angeles about three weeks ago, and was brought here by William P. Erskine, a mechanical engineer from Buffalo. It has been leased for use in the Southern California district by the Alamo Engineering and Construction Company of this city. None of these machines are sold outright, but they are simply leased for certain terms by the owners of the patents.

The first work undertaken by this huge thing of steel and iron, weighing

Christmas Gifts for Gentlemen

Owing to the fact that an immense stock of Christmas goods ordered for Store No. 1 were about to be shipped at the time of the destruction of the store, we now have a double stock of these goods at Store No. 2. In view of this fact and the immense stock we must dispose of in a short time—prices have been marked very close.

Especially big assortment and extra good values in fine neckwear and gift suspenders. These suspenders are packed one pair in a fancy box especially for Christmas. Positively the lowest prices in the city.

Extra values in men's blue serge suits at \$15.00

Art Goods Enticingly Priced
 Such values as these account for the spirited selling in the Art Dept.

18x22-inch Pictures—heads and figures, daintily tinted and set in inch-wide gilt frames—marked at about half actual worth because of the corners being slightly marred. **40c**

18x22-inch Etchings—same style as above only on smaller scale—particularly desirable for bedrooms and sitting rooms. **\$1.50**

5-inch cut glass spoon and bon bon holders—some with handles, some without—beautifully cut in chrysanthemum, sunburst and wheel designs. **\$2.50**

26x32-inch signed etchings—marine and woodland scenes in soft brown tinting—set in 3-inch gilt frames with fancy scroll corners—remarkably **\$2.00** cheap at.

Men's Gifts

Most men would rather receive some gift than see their only for Christmas. Now any one of the following is decidedly useful, and consequently will prove pleasing to whomsoever given. Special prices prevail, too—a fact which doesn't detract from their gift-worthiness a bit.

\$5.00 Terry cloth robes, \$5.50
 \$7.50 robes, \$8.50
 Smoking jackets, \$5.00 to \$15.00
 Domestic blanket robes, \$5.00

And just because we don't mention detailed prices on neckwear, shirts and all the other articles which go to make a complete man's wardrobe, don't think for a minute we haven't them—and at little cost, too.

Shell Combs 75c
 Amber and shell combs, filled with heavy hand tops and Part nouveau effects; some jeweled with imitation pearls, etc., from broken lines of \$1 to \$2 values, choose at 75c each.

40c Ribbons 30c
 Five and a half inch mouseline ribbons, in every wanted shade—a fine finish for du Barry and corset bows and rosettes; just to help you with gift making we have cut 40c ribbons to 30c a yard.

Luxury in Lounging Robes
 We've a window full of handsome silk dressing gowns, lounging robes, genuine Japanese quilted long or short robes, silk shawls, fancy waistcoats, and like garments of the highest obtainable quality; excellent for Christmas gifts.

In the New Store

We are entirely moved—but not entirely settled. The stock is all in place and we can give you the same old service, just as well now as if the windows were entirely finished and every chair and case set in its right place.

We have opened up some beautiful new goods for the new store. They are on shelves now, and we are anxious for you to come in and see them. Here's a description of one of the very newest shoes.

\$5.00 Patent Shoe
 for women. This is a shoe with a last and style just suitable for wearing with tailor made suits—and will come out. Of patent coil skin, whole for leather out, military heel, welt sole with wide extension Scotch edge, lace and button. Ask to see this shoe particularly.

We are still closing out our odds and ends at the same low prices quoted before we moved. If you can find your size among these bargains you'll find a pretty big bargain.

The Third street side of our new store is exclusively for men's shoes and the other side for women's and children's. The door entering the men's side is still unchanged, but you can enter by the door to the north of this.

WONDERS OF A MODERN FACTORY
Machinery Does the Work of Human Hands and the Perfect Food is Made in Absolute Cleanliness
A visit to the greatest modern food factory is a revelation to anyone not familiar with the development of machinery in recent years. Such a visit verifies the claims of the manufacturers of Malta-Vita, that this perfect whole-wheat food is cooked, steamed, mixed, baked and packed in absolute cleanliness.
"Purity is the watchword of this wonderful establishment. From the time the wheat is received in the factory until the finished product is shipped out to all parts of the world, Malta-Vita is not soiled by human hands. Machinery, clean, shining machinery, conveys the wheat through all the long process, even to the packing and sealing of the air-tight, germ-proof, dirt-proof packages.
After the wheat has been thoroughly cooked and steamed, it is mixed with pure barley malt extract, and each grain of the malted wheat is rolled into a water-like flake. Then it goes to the great ovens, where, under intense heat, it is baked crisp and brown—Malta-Vita, the most delicious, the most healthful food in the world.
Malta-Vita is always ready to eat. No cooking. No inconvenience. And you never tasted anything quite so good. Try a bowlful with cream or fruit. To those who have used it and know how delicious and sustaining Malta-Vita is, a perfect breakfast is next to impossible without it, and it's just as good three times a day. All grocers sell Malta-Vita."

LAWYERS ARE HIS VICTIMS.

Swindler With Old Method Headed This Way.

Has Practiced Clever Game in Northern Cities.

Expose of His Scheme; Police Are Warned.

A smooth swindler, whose game is distinctly unique in that he selects men who are supposed to be immune from crafters, is headed this way. Yesterday the police were notified to look out for this man whose cunning has been pitted in winning fights against some of the leading legal lights of the Coast cities.

Swindler's name is John. He is a man of about 35 years of age, of medium build, with dark hair, and is a native of the North. He has been practicing his game in the Northern cities for some time, and has been successful in winning fights against some of the leading legal lights of the Coast cities.

The swindler's game is this: He goes to the office of some reputable attorney and introduces himself as a man who has been practicing law in the Northern cities for some time. He then proceeds to tell the attorney that he has been successful in winning fights against some of the leading legal lights of the Coast cities. The attorney, who is usually a man of about 40 years of age, is usually a man of medium build, with dark hair, and is a native of the North. He has been practicing his game in the Northern cities for some time, and has been successful in winning fights against some of the leading legal lights of the Coast cities.

In a day or two, the swindler returns and the lawyer informs him of the result of the letter and the check and the office is congratulated for the proper amount of satisfaction. He then proceeds to tell the attorney that he has been successful in winning fights against some of the leading legal lights of the Coast cities. Coroner's Physician Not Fully Satisfied That Aracis' Death Was Wholly Accidental.

A doubt is cast on the manner of death that came to Abadie Aracis on Monday night. The story of his falling dead at the feet of his wife, from loss of blood caused by cutting an artery in his left wrist, was fully told in yesterday's Times.

At the inquest yesterday, the generally-accepted theory was that the cut was made by one of the broken beer bottles, upon which he apparently fell when stumbling through Frost-proof Park, to get away from two boys who were probably attempting to get his bottle of beer. It is a long climb out, such as in an exceptional case might be made by a broken bottle, but Dr. Campbell is not satisfied, and leans strongly to the theory that the cut was made by a knife, in the hands of somebody who struck a downward blow at Aracis. He did not feel justified in testifying positively at the inquest on that point, and a verdict was accordingly rendered that he came to his death from a "cut made by some sharp instrument."

Witnesses who heard the commotion between Aracis and his two tormentors testified to that fact, but the identity of the boys is not known, and no hint came from the evidence.

CONNECTICUT SOCIETY.

GHOST OF KID WON'T DOWN.

SAD INDIAN REPORTED LIVING IN THE MOUNTAINS.

Said to be Abiding There Quietly. Save for an Occasional Horsemanship Expedition - Full-blooded Apache Looking into the Question of Resignation as Citizen.

FRANCISCO (AP), Dec. 11.—About once a year the historic Apache Kid is rediscovered, though both United States and Mexican authorities believe that he died ten years ago in the Sierra Madre Mountains of Northern Mexico. U. S. Department of the Interior is the latest tale to the effect that the Kid, with a square jaw and a full head of hair, was seen by a Mexican hunter in the mountains of Northern Mexico. The hunter, who is a full-blooded Apache, is said to be a full-blooded Apache, and is said to be a full-blooded Apache.

IS INDIAN A CITIZEN? Mike Burns, a full-blooded Apache Indian, has been in Prescott for several days, looking into the question of his right to be recognized as a citizen and voter. Burns is now a resident of Agua Fria Valley, where he is in charge of a large ranch. He has a full-blooded Apache, and is said to be a full-blooded Apache.

MAVERICKS OF NEWS. It is charged that traders on the Nevada Indian Reservation are mostly engaged in the illicit business of supplying the residents with firewater. One of the traders, R. W. Buchanan, is now on trial in the local District Court.

about Pacoima, but the half has not been said.
You'll be sorry if you do not get in.

On the Ground Floor

CONSIDER

well, the natural advantage of Pacoima, the heart
of fruitful San Fernando Valley. Consider well
the marvelous growth of Pasadena, Alhambra,
Monrovia and Hollywood. None of them had the
natural advantages Pacoima enjoys. Don't you
wish you had bought in Pasadena or Hollywood?
Make up for the lost opportunities by buying in
Pacoima now. One of the biggest real estate
movements of the past ten years is sure to center
around Pacoima. Take advantage of our FREE
EXCURSION Sunday, Dec. 17, and after that

DOCTORS ADVERTISED.

Disciples of Annapolis in Old Days
Told Their Charges for Anatomy
Repairing.

The Southern California Historical
Society held its annual meeting last
night at the home of Walter B. Be-
son, 10 North Avenue 14. The officers
elected for the ensuing year are: pres-
ident, W. B. Beeson; secretary, J. M. Bur-
ton; vice-president, Mrs. M. Burton
Williamson; treasurer, Judge Edwin
Baxter.

Two papers were presented at the
meeting. The first was "The Historic
Streets of Old Los Angeles," by Mr. J.
M. Quinn. It dealt with old streets
that centered on the Plaza, with their
changes of name and their associa-
tions. The second was by Mr. H. D.
Barrows, entitled "Two Pioneer Doc-
tors of Los Angeles." Mr. Barrows
showed a price list drawn up by the
four doctors of the city in 1818. This
was written in Spanish, and pointed
around to tell at just white prices the
doctors would repair the anatomy of
old Angelenos. It was discovered
among some papers and books by
"Billy" Howard, a former sheriff, and
by him given to Mr. Barrows.

showed a price list drawn up by the
four doctors of the city in 1818. This
was written in Spanish, and pointed
around to tell at just white prices the
doctors would repair the anatomy of
old Angelenos. It was discovered
among some papers and books by
"Billy" Howard, a former sheriff, and
by him given to Mr. Barrows.

Two papers were presented at the
meeting. The first was "The Historic
Streets of Old Los Angeles," by Mr. J.
M. Quinn. It dealt with old streets
that centered on the Plaza, with their
changes of name and their associa-
tions. The second was by Mr. H. D.

STRICKEN SPEAK.

Interesting Exercises at Sixteenth An-
niversary of Los Angeles Mission
to the Deaf.

The Los Angeles Mission to the Deaf
observed the sixteenth anniversary of
its founding last night in the Parish
Hall of St. Paul's Pro-Cathedral. The
exercise was an interesting one.

The ordinary speaker uses his hands
to gesture with; rarely, indeed, does he
care to throw his body into action.
The turn of the head, the use of the
eyes, the sudden shifting of posture,
are left to the actor. The speaker
of last night had to make of their
hands the bridge to their fellows, and
their gestures were accompanied by
other means. But it was without a
taint of the theatrical that their ac-
tions mirrored their thoughts. One of
the speakers told a funny story, and
the humor was apparent even to those
to whom the living fingers were only
wonderful and not full of meaning.
The audience did not laugh, but a rip-
ple ran through it much as a grain
field aways in the evening breeze.

This power was especially shown by
one of the ladies, who gave an ac-
count of the history of the mission.
The address of the evening was made
by Thomas Wild, in sign by himself
and read at the same time by Mr. S.
P. Outley. Mr. Wild sketched the
progress of the deaf from the miracle
of the deaf child who was made to
speak by Jesus, and the human mir-
acles worked by St. John, Bishop of
Perpetua, in the time of the Venerable
Bede, who first taught a deaf mute to
speak, down to the time of the three
Gauls—Gauls, Thomas, Hoskins, Gaul-
landet, who established the first school
in America, the Rev. Dr. Thomas
Gaulandet, the father of the mission to
the deaf, and Dr. Edward Gaulandet,
who is the president of the world.
A letter from the latter was read,
conveying his salutations to the deaf
of Los Angeles.

Refreshments were then served in
the basement of the hall.

John Bartlett's Usefulness.

The death of venerable John Bartlett,
compiler of "Familiar Quotations" and
the "Shakespeare Concordance," re-
moves from us one who accomplished a
service of great value to the scholar
and literary workers of his generation.
Few realize the vast amount of patient
labor and the special talent that were
involved in these works of a lifetime.
He might be said to have furnished a
key that easily and quickly unlocked
the wisdom of the ages. His industry
was unpretentious but tireless and
busy men for many years to come will
hold his name in grateful remem-
brance.—[Boston Transcript.]

Street Car Stops.

LOS ANGELES, Dec. 11.—[To the
Editor of The Times:] Your sugges-
tion to have street cars stop at the
"cross" instead of the "bar" crossing
at street intersections, is eminently
proper and correct, and should be
adopted at once, to insure safety to
person and property and decrease the
possibility of accidents of all kinds.
The situation is so palpably evident
that it requires no elucidation for the
general public to see its practical util-
ity.
